

Project Data Sheet

Project	Salvage Operation of <i>Cristoforo Colombo</i>
Client	SMIT Singapore Pte. Ltd & Sakhalin Salvage Company
Project	<p>The trailing suction hopper dredger the “<i>Cristoforo Colombo</i>”, owned by Jan de Nul and operated by European dredging Company S.A., was blown ashore near the port of Kholmsh, Russia, during a Typhoon in 2004 after breaking down. Several flotation techniques were suggested and attempted. However, ultimately, the salvage operation was not successful and the vessel was dismantled.</p> <p>ADBP were employed to compile an extensive report. Under the instructions of the clients solicitors we provided our expert evidence and opinion based on the facts of the case on outlined topics requested. The evidence provided by ADBP contributed to a successful outcome for the client.</p>
